A student may request a leave of absence or educational leave from the University in order to pursue other educationally related activities or to clarify his/her educational goals. Undergraduate students must submit a request to go on leave to the the Office of the Registrar. Graduate students should contact the Graduate Studies office for information. A student must attend at least one term prior to requesting a leave of absence. A leave of absence maintains continuing student status and is usually for one or two terms but may be extended for an additional two terms maximum, total of 2 years on educational leave. This allows a student to maintain catalog rights and eligibility to enroll for the term immediately after the expiration of the leave without reapplying to the University. While on leave a student is not considered "enrolled" and is not eligible for any other services from the University. The student will be apprised of the registration information and deadlines for the term she/he is to return to Humboldt State.
