

ACADEMIC TERMINOLOGY

The Language of Program & Requirement Descriptions

The following sections of the catalog employ terms and numbering systems which may be unfamiliar to the new student. The most common of these, printed in bold, are explained here.

This catalog refers to academic programs, academic departments, and academic disciplines. The same name may refer to all three. For instance, history can refer to the major in history (a program), to the History Department, or to the general academic discipline of history. On the other hand, some names apply only to a program or department or discipline.

A **program** is a set of requirements met by certain courses. Most programs are associated with specific academic departments. However, teaching credential programs and several others are neither offered by, nor identified with, a single department. General education, a set of requirements met by taking a collection of courses, qualifies as a program in this sense.

A **discipline** is a conventional academic perspective or area of study. Chemistry, psychology, and marine biology, for example, are disciplines at Humboldt. The first two are represented by departments with the same name, but Humboldt has no specific marine biology department.

A **department** is an organization offering and administering academic programs. Usually the name of the department is the same as the program it administers, but not always. For example, the Department of Biological Sciences offers a major in botany as well as in biology. Departments usually are assigned to colleges.

A **college** contains and administers a number of departments. Humboldt State has three colleges: the College of Arts, Humanities, and Social Sciences; the College of Natural Resources and Sciences; and the College of Professional Studies.

Course Numbering System

All Humboldt State University courses have both a descriptive title (e.g., Survey of American Literature) and a course number (e.g., ENGL 232). Besides identifying courses, the numbers indicate other useful information:

001-099	support courses; units do not count toward graduation
100-199	lower division, appropriate for freshmen
100-109	lower division general education (except CHIN, FREN, GERM, & SPAN 105)
200-299	lower division, appropriate for sophomores
200-209	lower division general education
300-399	upper division, appropriate for juniors
300-308	upper division general education, area B, C, or D
309	upper division general education, areas B, C, &/or D (meets more than one GE area, but can only be used to satisfy one area)
400-499	upper division, appropriate for seniors
480	seminars/selected topic courses
499	independent/directed studies
500-599	graduate courses which may be taken by qualified seniors on an elective basis
600-699	graduate level, open only to graduates
700-799	credential/licensure courses, not generally applicable to a master's degree program

Letter designations can be attached to a course number. Letters B, C, D, and so on, distinguish between courses assigned the same number (e.g., ART 104B, 104C, 104F, 104G). Such courses may or may not be part of a sequence.

The letters Y and Z designate courses in a sequence. These have two limitations. First, the entire sequence must be completed in order to satisfy the requirement. That is, the student must complete the Z course before any units count toward general education requirements. The other limitation is that not all the units earned in a sequence count toward the GE requirement, only the number specified.

The letter L used as a suffix signifies a laboratory taught in conjunction with a lecture. Usually students must enroll in the lecture as well as the laboratory of such a course. The letter D signifies a discussion section —

and A signifies an activity section — offered in conjunction with the lecture portion of a course. The letter S is used to signify a service learning course. At least part of this course will include a service learning component.

Other Terminology

Sections distinguish parts of a course. For example, the laboratory section of a course may be distinct from the lecture section. More commonly, the term distinguishes between multiple offerings of a single course. To say, "there are four sections of American History offered in the fall," means the course is offered four different times that semester, possibly in four different locations.

Upper division courses generally are intended for juniors and seniors, **lower division** courses for sophomores and freshmen. As the numbering table shows, lower division course numbers run from 100-299, upper division from 300-499.

One speaks of a total baccalaureate (bachelor's) requirement of 120 units or describes a course as having three units. A **unit** is an amount of credit, the value assigned to the course.

A Student Credit Unit (SCU) is defined by the US Department of Education, WASC, the CSU, and HSU. See Academic Regulations, Credit Hour.

Units indicate how much time a course will meet and the minimum out-of-class student work required. The amounts vary with type of instruction:

- 1 unit of lecture or discussion = 50 minutes of classroom time and a minimum of two hours of out-of-class student work each week for approximately 15 weeks for one semester.
- 1 unit of activity = 100 minutes of classroom time and a minimum of one hour of out-of-class student work each week for approximately 15 weeks for one semester.
- 1 unit of laboratory = 150 minutes of classroom time per week. Most of the student work is done in lab.

Variable Unit Courses. Some courses may be taken for different unit amounts. Be aware that different requirements may exist for completion of different unit amounts

THE BACHELOR'S DEGREE

Preparation

English and Mathematics Placement. Placement in courses that satisfy CSU General Education (GE) Mathematics/Quantitative Reasoning and Written Communication requirements will be based on major, skill level, as demonstrated by applicable systemwide standards, and directed self-placement. See Admissions, "Assessment of Academic Preparation & Placement".

Requirements

Students' baccalaureate programs must conform to specific guidelines:

Limits. In certain kinds of courses, only a limited number of units apply toward graduation requirements. For instance, no more than six units in intercollegiate athletics courses may count toward graduation.

Residency Requirement. For both BA and BS degrees, students must earn a minimum of 30 units in regular courses at Humboldt. Of those 30 units, 24 must be upper division, and 12 of the upper division units must be in the major. All students must earn at least nine units of general education at Humboldt. None of these resident course units may be satisfied through extension, (24 units of Open University courses excepted), or credit earned through examination.

Grade Point Average. A minimum cumulative grade point average (GPA) of 2.0 is required in all work taken for the degree, all work taken at Humboldt, and all work taken in the major.

Graduation Writing Requirement. All students must demonstrate competency in writing skills as a requirement for graduation. Information on currently available ways to meet this graduation requirement may be obtained from the Graduation Writing Proficiency Examination (GWPE) website. The GWPE is an evaluation of writing skills used to determine whether students have attained a level of proficiency necessary to obtain a bachelor's degree. All students should take the GWPE before their last semester and must pass this test to graduate.

Students may take the GWPE after completing 60 semester units (junior standing) in addition to completing a GE area A1 written communication course (or an equivalent college composition course with a grade of C- or

better). For additional information about the GWPE, please visit humboldt.edu/gwpe.

Components of the Degree

The undergraduate (or baccalaureate) degree program has two forms: the Bachelor of Arts (BA) and the Bachelor of Science (BS). Both degrees require a minimum of 120 semester units. For the BA degree, at least 40 of these units must be upper division (HSU courses numbered 300-499).

* *General Education & All-University Requirements: Lower Division General Education, Upper Division General Education, Diversity and Common Ground, American Institutions*

General Education & All-University Requirements

The general education and all-university (GEAR) component requires a minimum of 48 units. Some of these units may simultaneously satisfy major, minor, or diversity & common ground (DCG) requirements. General education (GE) courses meet CSU breadth requirements and help students meet the goals of the bachelor's degree program. The GEAR component educates students in three ways:

- By developing the ability to think and communicate clearly and effectively;
- By acquiring knowledge about the arts, humanities, science, and society; and
- By understanding the methods, principles, and processes of human inquiry.

Within various disciplines, GEAR courses enable the student to explore fundamental

knowledge, perspectives, methods of inquiry, assumptions, and values. Such exploration helps the student perceive relationships between the disciplines in preparation for lifelong commitment to scholarship and learning.

Important Provisions

- Students may elect to take approved GEAR courses offered by their major department.
- Other HSU courses may not be substituted for the approved GEAR courses on the following pages.
- Students must complete GE Basic Subjects and Mathematical Concepts/Quantitative Reasoning courses with grades of C- or higher.
- Students shall enroll in GE area A: Written Communication and Mathematical Concepts/Quantitative Reasoning (a portion of area B) courses during their freshman year. Students must complete the remaining GE Basic Subjects (area A) by the time they earn 60 units. Transfer students who come to HSU with more than 30 units must complete these courses by the time they earn 30 units at Humboldt.

Information and advice regarding GE requirements are available from your advisor and at the Academic & Career Advising Center, GH 114.

Lower Division Component

Students must complete a minimum of 39 lower division units in approved GE courses. These break down to a minimum of nine units in each of four areas, designated A, B, C, and D, plus three units in an area E course (lifelong learning and self-development). Each area has specific requirements and outcomes, described on the following pages.

Upper Division Component

Upper division GE courses build upon knowledge and abilities developed in lower division GE courses. Students must complete nine upper division units: three units each from areas B, C, and D, taken no sooner than the semester during which they will attain junior status (60 units). Upper division "309" courses address outcomes of more than one GE area, but can only be used to satisfy one area.

Transfer Students

Students who transfer to Humboldt from a California Community College, and who have followed the approved CSU or IGETC general education pattern, may satisfy up to 39 semester units of GE with transfer coursework. Transfer students from accredited private or non-California colleges will have their transfer courses applied to GE through individual review of transcripts.

Send transcripts of all previous work to the Office of Admissions. A Degree Audit Report for Students (DARS) will be made available at the time of orientation or initial enrollment that indicates how courses taken elsewhere apply to Humboldt's all-university requirements [general education, American institutions, diversity and common ground, unit minimums and limits, etc.] and in many cases, the major program. The DARS report also reflects HSU courses completed and in progress, and is available to enrolled students whose first term of enrollment was fall 2003 or later.

Students who have completed an Associate Degree for Transfer under the Student Achievement Reform (STAR) Act should check with the Office of the Registrar to determine whether HSU offers the parallel bachelor's degree.

A minimum of nine units of GE coursework must be completed in residence (i.e. at Humboldt) to satisfy the residency requirement.

Majors, Minors, Electives

The **major** provides depth of study. For the BA (Bachelor of Arts) degree, the major consists of a minimum of 33 semester units. At least 12 units in the major must be upper division level. For the BS (Bachelor of Science) degree, a major requires a minimum of 36 semester units, with at least 18 upper division units.

Major programs must be approved by the university. A list of approved baccalaureate or undergraduate majors offered at Humboldt State appears at the beginning of the Academic Programs section in this catalog and is followed by detailed descriptions of the majors.

A major contract approved by the student's advisor and department chair must be submitted to the Office of the Registrar when a student applies for graduation or earlier. The major contract lists courses required for the major, including transfer courses and substitutions that have been reviewed and

approved. Students should work with their academic advisor to develop a major contract before they have completed 90 units.

The **minor** is similar to the major but less comprehensive. Although a minor is not required for graduation, many students find a minor complements their studies and enhances their career opportunities.

A minor consists of 15-30 units, six of which must be upper division. A minimum 2.0 (C) GPA is required. Courses used for a minor can also be used for general education.

Students are generally prohibited from earning a major and minor from the same degree program. Exceptions can be made in combinations in which:

1. at least 9 units required for the minor are not already required for the major. In cases where there are "options" within the minor or major, a student must take options such that at least 9 units for the minor are not counted towards the major; and
2. the major and minor must be distinctly different programs.

Although minors are posted on the transcript, they are not listed on the diploma. A minor cannot be posted if completed after the degree has been awarded. It must be completed in conjunction with a degree or credential program.

Students choose **elective** courses (outside of specific degree requirements) to fulfill total unit requirements for the degree. An elective component may be part of the degree, depending on the chosen major and/or minor.

Because electives do not meet specific requirements, a student may use them to pursue individual goals and interests. A student also may use electives to complete a minor. Most Humboldt courses may be taken as electives.

Guidelines for Completing Graduation Requirements in Four Years

In general, 15 units per semester each fall and spring semester leads to graduation in four years.

Declare a major at the time of admission or during your first semester. A major change may increase the time to degree.

Satisfactorily **complete a minimum of 30 semester units per year**. A minimum grade point average of 2.0 is needed to graduate.

Meet each semester with your assigned academic advisor to plan an appropriate course of study. Also, meet with an Office of the Registrar Transfer & Graduation Counselor (Office of the Registrar, SBS 133) each semester to review academic progress.

Pass the Graduation Writing Proficiency Exam (GWPE) as soon as possible after completion of 60 semester units.

Apply for graduation at least three semesters prior to graduation.

Participate in early registration each semester, and refrain from withdrawing and/or taking educational leaves

See your major academic plans available at: humboldt.edu/programs/type

GENERAL EDUCATION & ALL-UNIVERSITY REQUIREMENTS

Make sure you have a copy of your DARS report handy to view all degree requirements!

Did you know? Many of the GEAR courses can fulfill two requirements at once: (GE/Major, GE/Minor, GE/DCG, GE/AI)

At least 9 of your GE units must be completed at HSU

	COURSE	UNITS	TERM & YEAR	GRADE	CAMPUS	
G E N E R A L E D U C A T I O N	A BASIC SUBJECTS 9 units Page 69					Complete with a C- or higher within first 60 units. (Within first 30 units for transfer students)

120 Total Units 40 Upper Division Units 30 Units Completed @ HSU

LOWER DIVISION GE AREA A: BASIC SUBJECTS

Required Units: 9 | 3 units in each category

A1: Written Communication

Upon completing this requirement, students will be able to:

- demonstrate mastery of writing a well-composed and mechanically competent essay consisting of an introduction, claim (thesis), support (argument), and conclusion
- explain how the effectiveness of communication is influenced by the form, content, and context of someone's writing
- practice the discovery, critical evaluation, reporting, and appropriate citation of information.

ENGL 102 [3] Composition & Rhetoric A
and

ENGL 103 [3] Composition & Rhetoric B
(complete both courses to meet requirement)

ENGL 104 [3] Accelerated Composition
& Rhetoric

ENGL 104S [3] Accelerated Composition
& Rhetoric

A2: Oral Communication

Upon completing this requirement, students will be able to:

- demonstrate the discovery, critical evaluation, and reporting of information by designing an appropriately organized and credibly supported speech, using techniques to inform and/or persuade an audience
- deliver a speech using effective verbal and nonverbal skills
- critically listen to and analyze oral communication
- explain the role that oral communication plays in human societies.

COMM 100 [3] Fundamentals of Speech
Communication

A3: Critical Thinking

Upon completing this requirement, students will be able to:

- identify the premises and conclusion of an argument and determine its validity and soundness
- analyze, criticize, and advocate ideas
- distinguish deductive from inductive argument forms, identify their fallacies, and reason inductively and deductively
- distinguish matters of fact from issues of judgment or opinion and reach well-supported factual or judgmental conclusions from a wide diversity of real world examples.

BA 105 [3] Critical Thinking in
Organizations

COMM 103 [3] Critical Listening &
Thinking

CS 100 [3] Critical Thinking with
Computers

ENGL 107[‡] [3] Critical Writing

FOR 100 [3] Critical Thinking & Social
& Environmental
Responsibility

FREN 100 [3] Enlightenment & Post-
Colonialism

INTL 100 [3] Thinking Critically About
Globalization

PHIL 100 [3] Logic

PSYC 100 [3] Psychology of Critical
Thinking

Recommended for first year. Must be completed before earning 60 units. (Students who transfer in with more than 30 units must complete these before they complete 30 units at HSU.) A minimum grade of C- is required in each course.

Students in the Environmental Resources Engineering program should refer to the ERE program description for this area of general education.

[‡] Course requires one or more prerequisites. DCG Diversity & Common Ground; d domestic; n non-domestic LD Lower Division; UD Upper Division; A B C D General Education Areas;

LOWER DIVISION GE AREA B: MATH & SCIENCE

Required Units: 9 | minimum of 3 units in each category

Mathematical Concepts

Upon completing this requirement, students will be able to:

- use skills beyond the level of intermediate algebra to solve problems through quantitative reasoning
- apply mathematical concepts and quantitative reasoning to problems.

MATH 101	[3]	College Algebra
MATH 101i	[3]	College Algebra with Integrated Support [Coreq: MATH 1]
MATH 101T [‡]	[3]	Trigonometry
MATH 102	[4]	Algebra & Elementary Functions
MATH 103	[3]	Mathematics as a Liberal Art <i>(not for science or NR majors)</i>
MATH 103i	[3]	Mathematics as a Liberal Art with Integrated Support [Coreq: MATH 3] <i>(not for science or NR majors)</i>
MATH 104	[3]	Finite Mathematics
MATH 104i	[3]	Finite Mathematics with Integrated Support [Coreq: MATH 4]
MATH 105 [‡]	[3]	Calculus for the Biological Sciences & Natural Resources
MATH 108	[3]	Critical Thinking in Math <i>(for prospective elementary teachers)</i>
MATH 109 [‡]	[4]	Calculus I
STAT 108	[3]	Elementary Statistics
STAT 108i	[3]	Elementary Statistics with Integrated Support [Coreq: STAT 8]
STAT 109 [‡]	[4]	Introductory Biostatistics

Life Forms

Upon completing this requirement, students will be able to:

- apply scientific concepts and theories to develop scientific explanations of natural phenomena
- critically evaluate conclusions drawn from a particular set of observations or experiments
- demonstrate their understanding of the science field under study through proper use of the technical/scientific language, and the development, interpretation, and application of concepts.

ANTH 103	[3]	Biological Anthropology [lect/lab]
BIOL 102	[3]	Human Biology and
BIOL 102L	[1]	Human Biology Laboratory [lect/lab] <i>(not for most science or NR majors; chemistry or physics majors may take this course.)</i>
BIOL 104	[3]	General Biology [lect/lab] <i>(not for most science or NR majors; chemistry or physics majors may take this course)</i>
BIOL 105 [‡]	[4]	Principles of Biology [lect/lab]
BOT 105	[4]	General Botany [lect/lab]
SOIL 104	[3]	Introduction to Sustainable Agriculture [lect/lab]

Where courses exceed 3 units, only 3 units count towards GE requirements.

SCIENCE: One course must include a lab. Courses that include a lab component fulfill the science lab requirement.

Physical Universe

Upon completing this requirement, students will be able to:

- apply scientific concepts and theories to develop scientific explanations of natural phenomena
- critically evaluate conclusions drawn from a particular set of observations or experiments
- demonstrate their understanding of the science field under study through proper use of the technical/scientific language, and the development, interpretation, and application of concepts.

CHEM 107	[4]	Fundamentals of Chemistry [lect/lab]
CHEM 109	[5]	General Chemistry I [lect/lab]
ESM 108	[3]	Environmental Science & Climate Change [lect]
GEOG 106	[3]	Physical Geography [lect] <i>(May enroll in GEOG 106L to fulfill lab requirement)</i>
GEOL 103	[3]	The Water Planet [lect]
GEOL 106	[3]	Earthquake Country [lect] <i>(not for geology majors)</i>
GEOL 109	[4]	General Geology [lect/lab]
OCN 109	[3]	General Oceanography and
OCN 109L	[1]	General Oceanography Lab [lect/lab]
PHYX 104	[4]	Descriptive Astronomy [lect/lab]
PHYX 106 [‡]	[4]	College Physics: Mechanics & Heat [lect/lab] <i>(not calculus-based)</i>
PHYX 107 [‡]	[4]	College Physics: Electromagnetism & Modern Physics [lect/lab] <i>(not calculus-based)</i>
PHYX 109 [‡]	[4]	General Physics A: Mechanics [lect/lab]

Where courses exceed 3 units, only 3 units count towards GE requirements.

MATH: Minimum grade of C- required. Must be completed by 60 units. (Students who transfer in with more than 30 units must complete these before they complete 30 units at HSU.)

[‡] Course requires one or more prerequisites. DCG Diversity & Common Ground; d domestic; n non-domestic LD Lower Division; UD Upper Division; A B C D General Education Areas;

LOWER DIVISION GE AREA C: ARTS & HUMANITIES

Required Units: 9 | minimum of one course in each subarea

Upon completing this requirement, students will be able to:

- apply discipline-specific vocabulary and central discipline-specific concepts and principles to a specific instance, literary work, or artistic creation
- respond subjectively as well as objectively to aesthetic experiences and will differentiate between emotional and intellectual responses
- explain the nature and scope of the perspectives and contributions found in a particular discipline within the arts and humanities as related to the human experience, both individually (theirs) and collectively.

Upon completing a course in the arts, students will be able to:

- demonstrate an understanding of the intellectual, imaginative, and cultural elements involved in the creative arts through their (or, "as a result of their") participation in and study of drama, music, studio art, and/or creative writing.

Upon completing a course in the humanities, students will be able to:

- discuss the intellectual, historical, and cultural elements of written literature through their study of great works of the human imagination.

† Course requires one or more prerequisites. DCG Diversity & Common Ground; d domestic; n non-domestic LD Lower Division; UD Upper Division; A B C D General Education Areas;

LOWER DIVISION GE AREA D: SOCIAL SCIENCES

Required Units: 9 | minimum of two subareas

Upon completing this requirement, students will be able to:

- apply the discipline-specific vocabulary, principles, methodologies, value systems, and ethics employed in social science inquiry, to a specific instance
- explain and critically analyze human social, economic, and political issues from the respective disciplinary perspectives by examining them in contemporary as well as historical settings and in a variety of cultural contexts
- illustrate how human social, political, and economic institutions and behavior are inextricably interwoven.

Students with a catalog year prior to 2018-19 should refer to DARS Degree Audit for information about GE Area E.

Students in the Environmental Resources Engineering program should refer to the ERE program description for this area of general education.

Courses that meet outcomes of more than one GE area, may only be used to satisfy one of those areas.

‡ Course requires one or more prerequisites. DCG Diversity & Common Ground; d domestic; n non-domestic LD Lower Division; UD Upper Division; A B C D General Education Areas;

UPPER DIVISION GE AREA B: MATH & SCIENCE

Required Units: 3

Upon completing this requirement, students will be able to:

- apply scientific concepts and theories to develop scientific explanations of natural phenomena
- critically evaluate conclusion drawn from a particular set of observations or experiments
- discuss value systems and ethics associated with scientific endeavors.

The following majors have Upper Division GE Area B requirements incorporated into the major requirements: Chemistry, Environmental Resources Engineering, Fisheries Biology, Kinesiology, Oceanography, Physics (BS options only).

Students can also satisfy three units of Upper Division GE Area B by completing an approved minor in one of the disciplines in the College of Natural Resources and Sciences.

NOTE: A minor cannot be awarded to a student receiving a related major of the same name.

UPPER DIVISION GE AREA C: ARTS & HUMANITIES

Required Units: 3

Upon completing this requirement, students will be able to:

- apply discipline-specific vocabulary and central discipline-specific concepts and principles to a specific instance, literary work, or artistic creation
- respond subjectively as well as objectively to aesthetic experiences and will differentiate between emotional and intellectual responses
- explain the nature and scope of the perspectives and contributions found in a particular discipline within the Arts and Humanities as related to the human experience, both individually (theirs) and collectively.

Upon completing a course in the arts, students will be able to:

- demonstrate an understanding of the intellectual, imaginative, and cultural elements involved in the creative arts through their (or, "as a result of their") participation in and study of drama, music, studio art, and/or creative writing.

Upon completing a course in the humanities, students will be able to:

- discuss the intellectual, historical, and cultural elements of written literature through their study of great works of the human imagination.

UPPER DIVISION GE AREA D: SOCIAL SCIENCES

Required Units: 3

Upon completing this requirement, students will be able to:

- apply the discipline-specific vocabulary principles, methodologies, value systems and ethics employed in social science inquiry, to a specific instance
- explain and critically analyze human social, economic, and political issues from the respective disciplinary perspectives by examining them in contemporary as well as historical settings and in a variety of cultural contexts
- illustrate how human social, political, and economic institutions and behavior are inextricably interwoven.

AMERICAN INSTITUTIONS

Required Units: 6 | 3 units each area

US History

Upon completing this requirement, students will be able to:

- explain significant events covering a time span of at least 100 years of US history, including the relationships of US regions and relationships with foreign nations
- analyze the roles of major ethnic and social groups in the significant events above, and the contexts in which those events have occurred
- explain how these events illustrate both the continuity of “the American experience” and its derivation from other cultures by considering at least three of the following: politics, economics, social movements, and geography.

Area D6:

- ECON 323 [3] Economic History of the US
- HIST 110 [3] US History to 1877
- HIST 111 [3] US History from 1877
- NAS 200 [3] Indigenous Peoples in US History [DCG-d]

US & California Government*

Upon completing this requirement, students will be able to:

- distinguish the key philosophies of the framers of the US Constitution
- demonstrate an understanding of the nature and operation of major US political institutions and processes
- identify the liberties, rights, and responsibilities of citizens under the political system established by the US Constitution
- demonstrate an understanding of the California Constitution and state and local government within the framework of evolving Federal-State relations.

Area D8:

- FOR 359 [3] CA & US Forest and Wildland Policy
- PSCI 110 [3] American Government
- PSCI 159 [3] California Government
- PSCI 410‡ [4] American Constitutional Law

*A student who has earned credit for a course on US Government via an AP exam, CLEP exam, or at a university outside of California will have met the US Government portion of this requirement, but not the "California state and local government" requirement. In this case, a student may enroll in **PSCI 160 California Institutions**, a 1-unit CR/NC course that meets only this portion of the requirement.

Though the American Institutions requirement is separate from general education, one of the eight courses listed above can count in Lower Division GE Area D. Regardless of whether a lower or upper division American Institutions course is applied to GE, it will count for lower division GE, not upper division GE.

Students in the Environmental Resources Engineering program should refer to the ERE program description for this area of general education.

‡ Course requires one or more prerequisites. DCG Diversity & Common Ground; d domestic; n non-domestic LD Lower Division; UD Upper Division; A B C D General Education Areas;

DIVERSITY & COMMON GROUND [DCG]

Required Units: 6 | at least one course must be designated domestic

Upon completing this requirement, students will be able to:

- analyze the complexity of diversity through the perspective of differential power and privilege, identity politics, and/or multicultural studies.

Undergraduates must complete at least two DCG courses; one of these courses must

be designated domestic (focused within the boundaries of the United States) while the second course may either be domestic or international/transnational (non-domestic) in focus. Students may meet the DCG requirement with courses that simultaneously meet other degree requirements (general education, the major or minor, US Government, or the elective component).

Following is a list of courses currently approved to count towards satisfaction of the Diversity and Common Ground requirement

DCG courses that are also approved for GE have their GE areas designated in the GE Area column.

DCG Domestic (focused within the boundaries of the US)
